BEST PLACES TO LIVE IN AMERICA

DEVELOPING THE WORKFORCE OF THE FUTURE

BUTLER TECH

Butler Tech's Bioscience Center is a 160-acre campus-like setting located off I-75 in the vicinity of seven hospitals and a significant biomedical industry. Hospitals and bioscience companies partner with Butler Tech to train the health, medical and science workforce of the future.

CINCINNATI STATE

Cincinnati State's Supply Chain Career Development Center in West Chester offers a competitive advantage for area businesses seeking qualified, highly-skilled employees in the growing logistics industry.

The 22,000 square-foot educational center is equipped with office, classroom and warehouse space to provide hands-on training to students pursuing jobs in logistics, transportation and supply chain management.
